

## **About the Mid Alabama Corvette Club**

If you presently own a Corvette, Congratulations! You are already in a Corvette Club! A car club, that is unlike any other. Corvette drivers know they have the only true American-built sports car. With a long tradition of excellence, beginning in 1953, the Corvette has maintained its prestige of being the finest American sports car, known for performance, handling, and of course, the sleek design, recognized around the world. There are many ways to expand the experience of owning your Corvette. That is why the Mid Alabama Corvette Club was founded. . . and we are following that tradition into the 21st Century!

### **What is a Corvette Club?**

When most people hear the word “club” they think of meetings. We are involved in much more than meetings. We participate in a wide variety of activities such as parades, car shows, fund raising events, and an extensive calendar of social events, usually involving our favorite pastime. . . eating. Being a member of Mid Alabama allows you to share a common interest dating back to 1953, when America was introduced to its first true home-grown sports car, the Corvette.

### **Why join our Club?**

The Mid Alabama Corvette Club members serve as a talent and resource pool for each other, sharing experiences and Corvette knowledge. Whether you are interested in maintaining, restoring or rebuilding, concours or racing, there is someone in the club who can help with advice, information or even an extra pair of hands. Mid Alabama is all about fun and the enjoyment of the Corvette legacy. We have developed special relationships with several local establishments that encourage patronage by providing discounts for parts or services. Some also provide sponsorship for our club and its activities.

### **What is the Mid Alabama Corvette Club all about?**

The Mid Alabama Corvette Club (MACC) is all about fun and enjoying the experience of owning, driving and maintaining your Corvette! MACC has approximately 170 current members, making it the largest Corvette club in Alabama. Our Members participate in, and attend events all over the southeast. We have the “Corvette Cruisers” Bowling league that meets every week during our bowling season beginning every September. We always have a display at the Annual “World of Wheels” in Birmingham every February. That’s where we recruit new members and answer questions about our club and the Corvette. We are always searching for new members that want to be involved in our club. Our Annual Car Show, held each spring, brings out some of the best Corvettes from all over Southeast. Proceeds from this show have been used to support charities like, [Magic Moments](#) St. Jude and Children’s Hospital. We are also a major supporter of the National Corvette Museum. We usually meet the third Sunday of each month at a different place, just to keep it interesting. Watch our website calendar for meeting places.

You will be Welcome!

### **Who can Join?**

Young or old, anyone who owns a Corvette can join, any year Corvette is welcome, whether it’s in show condition, a daily driver, or in restoration. For information about becoming a member, contact either myself or our Membership Chairman.

*Dennis Hopkins, President*
